Wildlife company came and set up one way trap. They did catch one squirrel, removed trap & sealed up the hole. They recommended getting someone to look at the rest of the roof.

There is a call into a roof company that specializes in the tile roofing.

Potholes were fixed.

NYSEG came out and did a preliminary site review, asking for permission to drive across the lawn to cut down the trees. They have not yet completed the work.

I am still waiting for the SAM registration to process for Construction Application.

SHPO approved our 2023 project, with the caveat that the current doors must be stored until they can be reused in the building.

**Miscellaneous:**

A Letchworth State Park employee has been coming to digitize photos related to the CCC camps that used to be in the park for their Legacy Day, to be held on August 6<sup>th</sup>. We will receive a copy of those photographs and we will work on getting them uploaded to New York State Heritage after the metadata is created.

I have responded to an additional 4 reference requests over the last 2 months.

I used 6 hours PTO in July.
